PROJECTS

ZeroCostRevenueEngine 2026
AI-powered revenue and automation solution developed as part of a technical engineering challenge. Designed workflows to identify opportunities, automate processes, and generate actionable business insights using AI-driven solutions.
Tech: Python, AI Automation, APIs, Environment Variables

EduMentor-AI 2026
An AI-powered learning assistant built using Streamlit and Google Gemini to provide personalized educational support and interactive guidance.
Tech: Python, Streamlit, Google Gemini API

Heart Disease Predictor 2025
Machine learning application that predicts the likelihood of heart disease based on user health parameters and trained prediction models.
Tech: Python, Pandas, Scikit-learn, Machine Learning

Supermarket Sales Analytics 2025
Performed end-to-end data cleaning, EDA, feature engineering, and SQL analytics on 1,000 sales records to build an interactive Streamlit dashboard and extract key business KPIs.
Tech: Python, Pandas, NumPy, Plotly, SQL, SQLite, Streamlit, Jupyter Notebook

EXPERIENCE

IBM SkillsBuild AI Automation & Intelligent Solutions Intern JUN 2026 – JUL 2026
Completed a 6-week internship focused on AI Automation, intelligent solutions, and AI-driven workflows.

Google Gemini Student Ambassador 2026 – PRESENT
Selected as a Google Gemini Student Ambassador to promote AI awareness and drive student engagement through campus initiatives.

CERTIFICATIONS & ACHIEVEMENTS

AI & ML Virtual Internship – EduSkills (AICTE Approved) 10-week internship under Google for Developers
Java Training - IIT Bombay Spoken Tutorial (College Training & Test)
Django Framework Certification
MERN Stack Development Certification
